

CHARLES BOYLE

(630) 418-8409 | charlesboyle@gmail.com

SUMMARY

Aspiring entry-level software developer with a desire to enhance my foundational skillset of full-stack development and learn value-driven solutions for client needs. I am a recent graduate of the Northwestern Full Stack Software Development Bootcamp with previous work experience in private investigations, marketing, and sales. I am currently seeking junior positions in both front-end and back-end development.

EDUCATION

The University of Iowa, Iowa City, IA (Aug 2016–May 2021)

- Bachelor of Arts: Communication Studies and Enterprise Leadership

SKILLS

- | | | |
|--------------|--------------|---------------------------|
| • HTML | • Node.js | • Client Communication |
| • CSS | • Express.js | • Report Writing |
| • Javascript | • React.js | • Evidence-Based Analysis |

WORK EXPERIENCE

Private Investigator, Hanrahan Investigations Group - Hillside, IL (Nov 2024–Jan 2025)

- Gathered evidence through interviews and database research pertaining to asbestos exposure cases to support client legal action.
- Compiled detailed written reports of case findings to aid client decision-making.
- Collected intelligence from public records and sources in the field.
- Conducted surveillance on individuals suspected of claiming false injuries.

Digital Media Coordinator, RealtyAds - Chicago, IL (Mar 2023–Aug 2023)

- Assisted in the creation of managed service promotions and email marketing content ideas to promote the company brand.
- Deactivated broken webpages through coordination with Google and LinkedIn representatives.
- Created social media pages for new clients with necessary company information to onboard new clients.

CERTIFICATIONS

Northwestern Full Stack Software Development Boot Camp (Feb 2024–Aug 2024)

- 6 month bootcamp focused on skill development of HTML, CSS, Javascript, Object-oriented programming, API's, Node.js, Express.js, React.js, PostgreSQL, MongoDB, Model View Controller architecture, and Object Relational Mapping
- Assembled applications using the fundamentals of HTML, CSS and Javascript for simple front-end development skill building.
- Created and developed applications with Node.js for writing files to a server and for interaction between a client and a simple database.
